

Major Loads & Demand Response List

Major Loads List

The largest electric loads in the building, such as motors on HVAC equipment and in the boiler room. Also the lighting in large areas, such as the Gym & Auditorium.

<u>Major Load</u> _____	<u>Location of Load</u> _____	<u>Approx HP or KW</u>

Demand Response List

When the electric demand is at the peak load (the afternoon of a hot summer day), what equipment can you turn off? The non-essential loads, the areas not in use, etc. The list can include: HVAC equipment, the lighting in some areas, etc.
